

STIT: SMART TOOLS FOR INCLUSIVE TEACHING IN VET

STIT-VET

PRESS RELEASE #1

October 2022

Our LTTA in Granada was a wrap!

From 25th to 29th July 2022, partners and participants from Italy, Romania, and Spain were able to meet in Granada (Spain) to exchange opinions and best practices.

The topics addressed during the training were as follows: digital teaching and learning, inclusive education, and information technology for teaching and accessibility in learning.

At the end of the mobility, participants were able to express their satisfaction through an evaluation questionnaire, and the responses confirmed the success of the days spent together thanks to the Erasmus+ STIT project.

The STIT project comes to life thanks to its Project Results!

On September 28th 2022, partners met in an online meeting to decide how to proceed with the development of the Project Results (PRs) of the STIT project.

The products will be as follows:

1. **"Online training course for VET staff"** which aims to disseminate the pedagogical practices learned. The course will consist of pre-recorded webinars and will include interactive moments that will maximize the learning impact on the course participant.
2. **"Survival Toolkit for VET staff"**, a digital crowd-sourcing platform that aims to gather adaptable resources from the teaching experience of vocational education and training partners.

At the end of the meeting, partners were satisfied and ready to start creating PRs.

STIT: SMART TOOLS FOR INCLUSIVE TEACHING IN VET

STIT-VET

PRESS RELEASE #1

October 2022

The next step will be...the TPM!

During the last online meeting, partners set the date for the next TPM, which will take place at the end of October. During the next meeting, they will try to take stock of what has been done and what the next steps will be to develop the STIT project in the best possible way.
