# STIT: Smart Tools for Inclusive Teaching in VET

STIT-VET

PROJECT NEWS

- **More than 120 accessible and inclusive distance teaching practices ready for you**

These practices identified and selected by the European researchers part of the Erasmus project "Smart Tools for Inclusive Teaching in VET", represent the main outcome validated by the STIT consortium in Romania.

- **A set of 10 interactive videos for VET staff**

Carefully designed to allow teachers, tutors and mentors to develop their skills in the digital teaching creating and accessible and inclusive learning environment for VET students with visual and hearing impairments, as well as with learning difficulties.
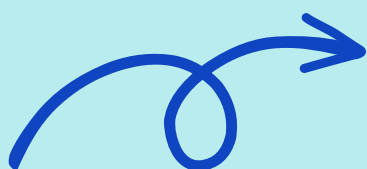

READY TO TRY DIGITAL SOLUTIONS FOR VET TEACHERS?

Digital Tools Ready For Use
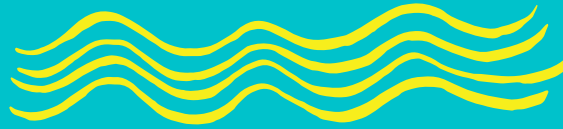

Accessibility training course for vet staff

The online course consists of 10 interactive video lessons about inclusive VET teaching and accessibility designed and peer reviewed by experienced teachers, to provide an innovative professional development opportunity for VET staff.

What you get:
- Better understanding of accessibility issues in education
- Ability to improve student engagement and participation through the implementation of strategies for diverse learners.
- Enhanced confidence and self-efficacy in supporting students with special educational needs.

How does it work:
- Enrol the course and answer the initial test
- Go through the 10 interactive video modules
- Sit for a final online test
- Download your FREE course certificate

Survival toolkit for vet staff

The Toolkit is a digital collection of adaptable resources that enable teachers to create its own lessons using and combining tools and solutions adopted by others.

It comprises three main components:
- A collection of activities
- A library of tools
- A lesson planner that could benefit from the content of the first two sections.

It serves to prepare lessons that follow the flipped-classroom approach, always keeping in mind inclusivity and the VET context.
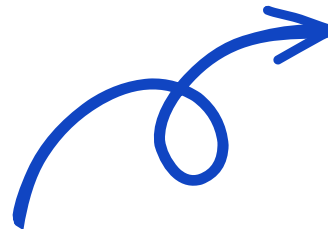

Online course in EN

Enjoy your learning experience!

What's Next

The next step is to pilot the new platforms during focus groups with VET staff and people with disabilities. These will be held in Italy, Spain and Romania to validate the results.

3 reasons to use the STIT digital tools

Foster the professional development of VET staff

Improve accessibility in digital and distance learning in the VET sector

Offer an inclusive learning environment for students with disabilities and special educational needs
