RURAL IMPACT

What's new?

Since August to December 2025, partners were in the process of translating the Online Social Entrepreneurship Modules (WP2) and the Up-skilling Programme for VET Professionals (WP3). These materials were translated into 5 languages: EN, PT, HR, RO and BG.

From March to May 2026, all partners will be hosting webinars and networking events designed to strengthen the Rural Impact community. These events will bring together young VET students from rural areas, fostering engagement, shared learning and collaboration. We're especially excited to welcome stakeholders from incubators and VET students as guest speakers, who will share first-hand insights into how this innovative approach is shaping vocational education in rural contexts.

Transnational Piloting Event in Portugal

In Porto, on 25th and 26th March, our Portuguese partner (ECSH) will host a special 2-day training event for 12 VET professionals from across the partnership. Each participating country will send one trainer to deliver and test their module with the group. After each session, participants will share feedback on the usefulness of the content and the suitability of the approach, helping us refine and enhance the programme further.

This event is a key step in our mission to support VET professionals in adapting their training to better meet the needs of rural learners, making vocational education more inclusive, relevant and impactful.

Stay tuned!
