RURAL IMPACT

Final Meeting in Latvia

Project partners were delighted to attend the Final meeting in Latvia on 14 th July. At the meeting, partners completed a final review of all resources produced in the Rural Impact project, the project ´s impacts and the outcomes, and defined clear plans for the project´s sustainability activities. All of this took into account the aim of making VET provision more adaptable to the needs of young VET learners based in rural areas and improving access to key business development supports that will help young social entrepreneurs overcome the “double bind” that they face in this sector.

We want to take this opportunity to thank Valmiera Development Agency for a well-organised and efficient meeting, especially now as we come toward the end of this project journey.

We´re nearing the end of the project...

We are excited to announce the successful completion of the Rural Impact Project!
After months of collaboration, we’ve achieved our goal of providing rurally based young VET learners with access to targeted, quality VET programmes that help to build their skills to be successful social entrepreneurs, supporting VET providers to tailor their VET offer to rural areas.
Discover the impactful outcomes of the Rural Impact project! Explore our final results, access a range of free resources, and learn more about the Potential of Youth Social Entrepreneurship for Rural Economies.
